

MassARRAY® System

Windows 10 Upgrade

Upgrade your MassARRAY to Windows 10 software

Microsoft is discontinuing support for the Windows 7 operating system in January 2020. After this date, Microsoft will no longer be offering security updates for Windows 7 and is recommending converting to Windows 10. To ensure a smooth transition to Windows 10, Agena is offering upgrade packages. A Field Service Engineer will perform the upgrade at your site in a single day and ensure that all existing data and settings are correctly migrated.

UPGRADE BENEFITS

- Improved security features offer advanced malware-resistance capabilities
- Continued Microsoft updates and support
- Access to Agena's latest RT-Workstation v4.0 software upgrade and future Typer/EpiTYPER® updates

For Research Use Only.
Not for use in diagnostic procedures.
